

INTERSTATE COMPACT

This program facilitates the interstate transfer of felony probationers and is governed by rules adopted by the Interstate Compact Commission for Adult Offender Supervision. Individuals transferring into the state are assessed and supervised in accordance with Yavapai County Adult Probation policies and procedures. Progress reports are provided upon request of the receiving state unless noncompliant behavior requires more frequent reports. In 2008, all the states and territories that are part of the compact became part of the Interstate Compact Offender Tracking System (ICOTS). Data on all offenders involved in interstate transfer is contained in the program's database and can be accessed by approved users. Its implementation has increased public safety and enhanced our national security. Individuals who are sentenced to probation in Arizona and request a transfer to subsequent state are processed with the same criteria and through the ICOTS tracking system.
